Objective

I am about to complete my Bachelor's degree in computer science engineering, with a strong passion for Java and web development. I have gained a solid foundation in both front-end and back-end development, but I am particularly focused on mastering Java in real-world applications. I am eager to apply my skills in Java to solve complex problems and work on impactful projects. I am actively seeking a job opportunity where I can leverage my expertise in Java, continue learning, and contribute to the development of high-quality software solutions. I am enthusiastic about working in a dynamic environment and utilizing best practices to drive success in real-time projects.
